

FREDDIE ASSEMBLER

4567 First Street
Santa Clara, CA 99999
408 444-3333

SUMMARY

Ten years of assembly experience in a clean room environment. Skilled in quality control techniques, packaging devices, and following Manufacturing Procedure Instructions (MPI's). Experienced with centerless grinder, spot welder, and surface grinder. Able to handle and dispose of chemicals safely.

PROFESSIONAL EXPERIENCE

FIDUS MEDICAL TECHNOLOGY CORP., Fremont, CA

1995

Mechanical Assembler

Assembled generators, mounted parts on baseboard, and completed point-to-point wiring and soldering using schematic drawings.

- Made connectors and used crimping tools according to specification and standards.
- Suggested reworking cutter snapping rejects to make them usable, resulting in a substantial cost savings.

VASCULAR DEVICES INTERNATIONAL, Redwood City, CA

1986 - 1995

R&D Assembler

Spot-welded, assembled nose cones, prepared inflation tubes, and measured balloon wall thickness. Supported the following products: SCAEX, GTO, AtheroCath, and Guides. Coated guides, formed guide tips, packaged guides.

- Trained new engineers, assemblers, and sales representatives to make catheters.
- Suggested fixture to measure balloon wall thickness under tool make microscope, increasing accuracy of measurements.
- Assembled prototypes using Manufacturing Procedure Instructions (MPI' s). Built, tested, and inspected Lyticath infusion catheters.
- Assembled devices and motor drive units. Worked on balloon forming.

EDUCATION

Company sponsored training - Math, Measurement, and Tool classes
